Comments

Wachuset Black Knight is beautiful, elegant and talented. Due to his high- percentage Lippitt Morgan breeding, he has a strong, solid structured body, with longer neck and clean jowl line, long large flat bone in legs that move well under him. He has a beautiful refined head, large black eyes topped with long heavy forelock and mane. Top ribbon show records include classes: In-hand conformation, sport horse, hunt seat, Justin Morgan Versatility, log pulling and currently in dressage training. He has a kind, gentle, people loving disposition. WBK's foals carry on his proud heritage, great qualities and are already winners in the showing ring. He captures the heart and admiration of all. Breeding your mares to him will enhance your breeding program and produce the foal you have been striving
